Cable-Adapter, Squib Cable to Sentinel Metron

Kidde Fire Systems
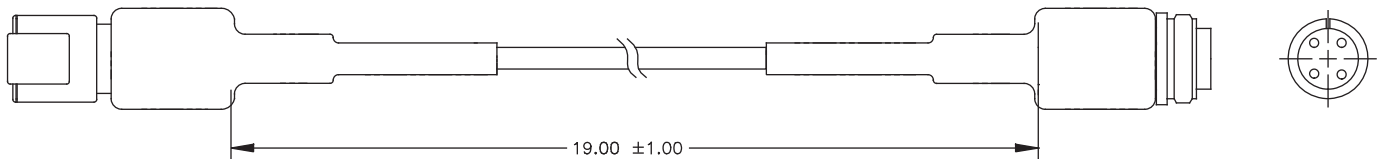

P/N 83-132483-710

FEATURES

- **Connects Sentinel RSA to KVS 2000**
- **Eliminates handling explosive squib**

DESCRIPTION

The Adapter Cable, P/N 83-132483-710, is a 19 in. length cable with one end fitted with a Deutsch DT Series 2-pin connector and the other end fitted with an Amphenol 4-pin connector. The Adapter Cable allows a KVS2000 system to upgrade from the KVS Squib (P/N 83-844712-000) fitted to the Electrical/Mechanical Actuator (P/N 83-897391-000) to the Sentinel Remote System Actuator, RSA (P/N 83-132514-000), using the Sentinel Metron (P/N 83-132500-500).

The Amphenol end of the Adapter Cable connects to the KVS Squib Connector Cable (P/N 83-844710-000). The Deutsch end of the Adapter Cable connects to the Sentinel Metron, after installed into the RSA.
